SCHENCE'S PULMONIC STRUP.

SCHENCK'S SEAWERD TONIC. SCHENCR'S MANDRAKE PILLS. These three medicines will cure Pulmonary Consumption frequently in its last stages.

The Pills strike the bile and clear the stomach of the mucus; the Seaweed Tonic dissolves the food and creates a good appetite; the Pulmonic Syrup penetrates through the bloodvessels, creates a new circulation, and causes expectoration.

CURED OF A BROKEN BLOODVESSEL,

I, E. T. FRAMBES, residing at No. 411 Vine Mrset.Philadelphia, do hereby certify:-That had a constant hacking cough, with pain in m yshoulders and under my shoulder-blade, In ycomplexion sallow, bowels irregular, somefimestoo loose, and other times costive. On the first of May, 1859, I took a walk to Franklin Square, and sat down to get some fresh air; I had not sat there more than five minutes when, by giving a cough something started, and as near as I can tell, half a gallon of blood gushed out of my mouth. A crowd of excited people gathered around me, and I was taken over to Mr. Bower's drug store, corner of Sixth and Vine streets. They sent for a physician, and I was taken home. I laid there for several days, spitting from a pint to a quart of blood once or twice a day. My mother insisted on sending for Dr. Schenck, which was done, and at that time every hæmorrhage was expected to take me off. When Dr. Schenck came and felt my pulse, I felt that I was in a critical way, from his countenance. At once, he had the salt that had been prescribed removed, and forbade my eating any more under any circumstances, as it would irritate my lungs. The first thing that Dr. Schenck did was to give me a large dose of Schenek's Mandrake Pills; mother rather remonstrated with the Doctor at first; she was afraid that the operation of the pills, and having to move about, would start the bleeding again. He said that was the only

I lay confined to my bed, afraid even to turn my head, for fear I would bleed to death. I took Schenck's Pulmonic Syrup as fast as my stomach would bear it, without any regard to the directions. I kept on bleeding for two days after Dr. Schenck was called, but less in quantity; the third day it came up clotted, then Dr. Schenck gave encourage ment. He then gave me a bottle of his (Schenck's) Sea-weed Tonic, as my stomach was so weak; it soon gave me such an appetite that I was in fear all the time of eating too much; and still, withal, after the blood stopped, it left me a distressing cough, and much more than before I broke the bloodvessel. Dr. Schenck told me that it was caused by eating salt. The Pills cleansed my tongue of the scurf and regulated my bowels. The Sea-weed Tonic brought up the tone of my stomach, and I felt as though I was doing well, although my friends all thought I was going into hasty Consumption, as I coughed ncessantly. When I went to bed at night, I would roll and cough all night, and towards morning sweat so that my underclothes and the sheets were wringing wet.

My pulse would get very quick and full, and my tongue, although clear of scurf, looked more like a piece of raw beef than anything I can compare it to. I am now a well man. I have no cough, no nightsweats, no bleeding, and have picked up considerably. I think I feel as well as I have for years. I do think that any person afflicted with anything like the Consumption should go or send at once to Dr. Schenck, and let him make his examinations with his Respirometer, and I can assure them, if the lungs are not too far gone, his Pulmonic Syrup is sure to cure.

E. T. FRAMBES. We, the undersigned, are well acquainted with Mr. E. T. Frambes, and saw him down, confined to his bed, as we thought, never to get up again, but, to our great surprise, he has been cured, as we believe, by Schenck's

Pulmonie Syrup.

COURT OF QUARTER SESSIONS—Judge Ludlow.

—A large audience was in attendance this morning, and this bids fair to be the case for some time to come. The seats for spectators are very comfortable, and the ventiliation good; and, moreover, the amusement derived from the trial of a great many cases is an attraction to those who are at a loss to know how else to employ their time.

Everybedy being comfortably scated, parties, jurors, and attraction to those who are at a loss to know how else to employ their time.

he very body being comfortably scatted, parties, jurors, and attorneys every body having "hemmed" and "hawed" by way of introduction, and order and silence being established, the word was given, and two very learned attorneys began a long argument in a case, a detailed account of which would insult

public modesty.

A motion was made to quash a bill of indictment charging William H. Moore with largeny as ballee, and was argued upon the ground that the bill was informat, firstly, in charging that on the 5th day of its, 1866—no such day being known to the law—the defendent of the contains the contain formal, firstly, in charging that on the 35th day of lat, 1868—no such day being known to the law—the defendant did hold certain city warrants for certain soldiers, the property consequently belonging to those soldiers, secondly, in cliarging that delendant (the property having subsequently been transferred to one Eugene Shelder) obtained and cenverted to his own use this property, not in any wise narticularizing the property, but leaving the idea still vague and uncertain. This being clearly within a late decision of the supreme Coort, the Court expressed but Have doubt that the bill should be quashed, and decided to that effect, Immediately another bill was sent up to the Grand Jury.

William Sempler was charged with the larceny of a cepper still-bend, valued at \$10, the property of Daniel Cosgrove. Mr. Cosgrove kept a little household distillery in South street, and was robbed of this imporsant piece of the machinery, he said, by Sempler. After the hearing before the Alderman, Sempler told Mr. Cosgrove that he could not return the stolen property, because he had disposed of it, but offered to pay 131 if the prosecution was stopped.

Mr. Cesgrove is an infirm old gentleman, suffering very much from rheumatism. He was convicted several days ago of a charge of keeping a tippling bouse, upon the evidence of Simpler's mother, and he said that the Charge was made against him because he insteaded to prosecute this defendant. On trial.

MINITING OF THE AGRICULTURAL SOCIETY .-The regular monthly meeting of the Agricul-tural Society was held this morning, President iddle in the chair. The President stated that Dr. Kennedy, the

The President stated that Dr. Kennedy, the Secretary, being unable to attend, the minutes of the previous meeting would not be read. Albert C. Roberts, Samuel Huston, and G. W. Faust were elected members. Stephen B. Polter, Charles Brown, and John Patterson were proposed for membership.

The Committee on Fertilizers presented a memorial which is to be submitted to the Legislature. It states that the manufacture and said of what are termed artificial manures or fertilizers has increased in the city of Philadelphia until it has become a business of great magnitude.

It goes on to state that as an Inspector has It goes on to state that as an Inspector has been appointed to inspect bark, beef, pork, etc., to prevent impositions being practised and the perpetrators exposed, the petitioners pray that an inspector of manure may be appointed, as greater frauds can be practiced in its manufacture than in any other article.

The memorial does not ask that every bag or bundle be marked, but only to hold the article limble to inspection at any time.

The committee was continued, and were instructed to endeavor, to the best of their ability, to have the bill, which was presented, read, and approved by the Society, passed.

to have the bill, which was presented, read, and approved by the Society, passed.

Dr. Thomas, Chairman of the Committee on Potatoes, presented two specimens, each weighing a pound, and hoped that the gentlemen would give the Committee a call and help develop this interesting subject. All should give it their earnest attention; unless they do, we will be at a loss to have a good article. After the corn crop is exhausted, we depend upon the potato for an article of food. The Committee are making experiments with the potatoes are making experiments with the potato they have received, and are endeavoring to find

McGowan stated that the potatoes presented were not marketable. They were cut in half by that geotleman, and were found to be

lefective, caused by overgrowth.

Dr. Hall stated that Liebig informs us there is a small insect, so small that it is invisible to is a small insect, so small that the first in the street is the eye, which gains access to the potato and leaves it when it has matured. On its egress it leaves a small hole, and if the potato lies in damp soil, the air, penetrating this hole, will produce rot; but if it is in dry soil, and dug when ripe, the air insinuated will have no effect.

Mr. Eldridge moved that when the Society adjourns it adjourn to meet on the 20th of March, for the purpose of considering the potato question, and that the Committee be instructed to take such measures as they may deem most advisable to secure a full attendance of all persons interested in the potato culture, whether members of the Society or otherwise, and that they shall bring specimens

of potatoes as they grow. Adopted.

It was moved, seconded, and carried that the potatoes cut by Dr. McGowan be placed in the hands of Dr. Hall for a microscopic inspection, o report at the meeting on the 20th instant. Adjourned.

PHILADELPHIA STEAMERS, SOUTH-NEW OR-LEANS, HAVANA, AND SAVANNAH.—Telegraphic advices to the Southern Mail Steamship Com-pany announce the arrival out of the Star of the Union, Captain Crookley; that she was rapidly discharging cargo, and would sall on her return trip, touching at Havana, on Saturday next. Her freight list is full.

The same despatches announce the sailing of her consort, the Juniata, Captain Hoxie, on the 2d instant. The last passage of this ship was made in six days and ten hours on the home trip, eight days being the regular time-table allowance. She will bring a heavy freight.

PETTY POLICE MATTERS.—Frank Risen, man forty years of age, was arrested yesterday morning, at the New York Depot, on a charge of misdemeanor. He has been in the habit of resorting to the depot for unlawful purposes, and was arrested yesterday, after several months' search by the police. He had a hearing, and was held in \$600 ball by Alderman Sinex.

Ellen Coffman, a street perambulator, was arrested at Seventh and Middle streets, at a late hour last evening. After hearing her story Alderman Beitler was so moved by it that he furnished her with board and lodgings gratis for an entire month at Moyamensing. Mary McCusker, a female bummer, was arrested at No. 905 Christian street, yesterday morning. It appears that she had got into a difficulty with some of her neighbors, and had indulged her angry passions to the extent of assaulting and using a quantity of Billingsgate assaulting and using a quantity of Billingsgate upon them. Alderman Tittermary committed her to answer the charge of assault and battery. A boy about twelve years old was arrested in Rodman street last evening, for throwing stones. In indulging in this innocent amusement he broke a window, and came near severely injuring a passer-by. He was held in \$300 ball to keep the peace by Alderman Patchell.

The father came out and tried to clear them away, when they attacked him, and a free fight ensued, which was broken up by the arrest of all four of the parties concerned. They had a hearing before Alderman Moore, who held them in \$400 hall, each to appear the absence. them in \$490 ball each to answer the charge of fighting.

Religious Convention to Obtain a Recognition of the Deity, the Authority of Jesus
Christ, and the Supremacy of the Birls
in Civil Appares, in the Convention, and
Laws of the Country.—The Convention convened last evening at 7½ c'clock, an account
of which session will be found on one of our inside pages. According to adjournment, the
Convention reassembled this morning at 10½
o'clock, in the Second Congregational Church,
at which time, because of the inclement
weather, the attendance was not large.
In the absence of Judge Strong, the presiding
officer, the Rev. E. W. Smiley, pastor of the
Church, was called to the chair. Prayer was
offered by Rev. J. R. W. Sloane, of New York.
The minutes of the previous meeting were read
by the Secretary, Rev. J. P. Stevenson, and were
approved. RELIGIOUS CONVENTION TO OBTAIN A RECOGNI-

The report of the Business Committee was called for, the chairman of which, Rev. Joseph T. Cooper, D. D., submitted the following resolutions for discussion, and which were manually mously adopted:—

Resolved, That we believe, by a principle not only clearly taught in the Word of God, but corroborated by the teachings of nature and reason, that civil government is an ordinance

and that those occupying official positions in the Government are, in their capacity as civil magistrates, the ministers of God.

Resolved, This being the case it follows, we believe, as legitimate and necessary deductions, that the authority of Jehovah must be regarded as the formal source of all civil power, and consequently be regarded is imposing upon the Government as such, and those who are called to administer it, surreme and parato administer it, supreme and para called

of God, as the moral government of the universe

ount obligations. Resolved, That it belongs to the Great Founder Resolved, That it belongs to the Great Founder of all civil government to say how and by what means he shall make known His will to man as to the principles which should control him as a member of civil society. The only question for us to consider is, Has the Supreme Ruler given us any expression of His will in regard to this matter—that expression wherever found, whether inscribed on the framework of creation, the structure of man's physical, intellectinal moral, and social constitution, or as set tual, moral, and social constitution, or asset forth in the inspired word, has, and must neces-sarily have, the force of law. Resolved, That these principles being indis-

putably correct, it follows that a people favored like the people of the United States with a written revelation, are bound by the highest conceivable obligations to receive with the most profound reverence and submission any intimation which the infinite Author of that revelation has been pleased to communicate as to the conduct which He requires of them in every relation of life, and, of course, in the important relations which they sustain to Him and each other as members of civil society. Resolved, If, in this revelation, the Founder of

civil society has distinctly made known to us the fact that He has constituted one to be "the Governor among the nations," and "the Prince of the kings of the earth," and "the Head over all things," it is surely the high and imperative duty of all to whom that fact has been made known to recognize Him in the character and position in which He has been thus presented; and as He has made known to us, in His written word, the fact that His character and posi-tion belong to the Lord Jesus Christ, such a recognition is unquestionably due from us to

Resolved. That all objections to the principles set forth in the Constitutional amendments we declare, resting upon the prohibition of reli-gious tests in the Constitution, and of the esta-lishment of a national religion, do assume that the nation, as such, should know no God—an assumption which is repudiated by the ablest expounders of the Constitution. For example, Judge Story says, "It is impossible for those who believe in the truth of Christianity as a Divine revelation, to doubt that it is the special duty of covernments to contern and presumes." of governments to foster and encourage it among all the citizens and subjects. Probably at the time of the adoption of the Constitution, and of the amendment to it now under con-sideration (the one prohibiting the making of a law respecting an establishment of religion), general, if not the universal, sentiment in America was that Christianity ought to receive encouragement from the State so far as such encouragement was not

state so far as such encouragement was not incompatible with the private rights of conscience and the freedom of religious worship. An attempt to level all religious and to make it a matter of State policy to hold all in utter indifference, would have created universal disapprobation if not universal indiversal (States on the Constitution on 250 and 261.)
The resolutions were taken up variatim,

and discussed in that manner, in which discussion Rev. Drs. McIlvaine, Cooper, Stevenson, Hume, Smiley, and some gentlemen of the inity took part. It was moved that the Convention do adourn at 1 o'clock P. M. to 3 o'clock P. M., which was adopted.

It was made known that in this afternoon and evening sessions lengthy addresses will be made by Revs. Dr. Smiley, Joseph T. Cooper, made by Revs. Dr. and Dr. McIlvaine.

Latest and Most Important Discoveries in the Treatment of Chromic Diseases.

'DR. S. W. BECKWITH'S

ELECTRICAL INSTITUTE, No. 1220 WALNUT ST.

During our investigations in the treatment of disease in its various forms by the agency of electricity, we have obtained very many valuable and startling facts, which, added to the previous though limited information, possessed by other and less fortunate operators, place us beyond all previous knewledge of this mysterious agent. During the course of our practice we have treated and oured, through the knowledge thus gained, many thousands, and by means of our new discoveries have established ourselves as the most successful Medical Electricians in this country or Europe.

Ejectrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain, mucous and serous membranes, the skin, tissues, and fluids constitute the negative and posttive torces, and every action, whether mental or physical, is the result of these antagonistic forces. Disection, respiration, circulation, secretion, and excretion are due solely to electrical influence. There is a polar action established throughout the nervous system which connects with every part of the body, establishing and preserving a proper balance of the electrical element which consututes health, and a disturbance of which causes disease. There are strictly but two conditions of diseaseone of inflammation, or positive; the other weak, debilitated, negative-and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper, healthy action.

Among the chronic diseases in which electricity has been, and is daily being by our agency, of the greatest utility, a cure being rapidly effected atter the failure of all other means, are :-

1. Epilepsy, Chorea, or St. Vitus' Dance, Paralyais (Hempiegia), Neuraigia, Hysteria, Nervousaese, Falpitation of the Heart, Lockjaw, cic. 2. Sore Throat, Dyspopsia, Diarrhea, Dysentery, Obstinate Consupation, themorrhoides, or Piles, Billous, Flatulent, and Painter's Colic, and all affections of the Liver and Spleen. 3. Catarrh, Cough, Influenza, Asthma (when not caused by organic disease of the heart), Bronchitis, Figurity, Figured) nia, or Kheumausm of the Chest,

Consumption in the early stages.

4. Gravel, Diabetes, and Kidney Complaints.

5. Rheumausm, Gout, Lumbago, Stiff Neck,
Spinal Curvature, Hip Diseases, Cancers, Tumors
(those last named always cured without pain, or
plasters in any torm).

6. Uterus Complaints, involving a mal-position,
as Prolapsus, Antroversion, Retroversion, Inflammation, Ulceration, and various other affections.

For information desired upon other diseases, application may be made at the office, or by letter. Mrs. BECKWITH has enure charge of the Ladies' Department, and all delicacy will be used towards those who entrust themselves to her care. In temale diseases, it is universally successful in her

hands. For the convenience of those desiring information, we give (by permission) a few names of persons among the best business men and others of this city and elsewhere, whom we have treated and cured : city and elsewhere, whom we have treated and cured:
